### *Fulcrum IT Awarded JDISS Contract with a ceiling of \$469 Million*

**MANASSAS, VA, March 29, 2011**—Fulcrum IT announced today that it was awarded the Joint Deployable Intelligence Support System (JDISS) Engineering Technical Services (ETS) Contract. Fulcrum IT can now compete for task orders up to \$469 million to support the JDISS mission by establishing and maintaining certified software / systems baselines, intelligence mission applications, and remote and on-site support for a wide spectrum of Department of Defense (DoD) Intelligence Community (IC) producers and various other US and allied organizations.

Fulcrum IT and its team members CACI, CenTauri, Crucial Point and General Dynamics Information Technology were awarded multiple delivery orders as part of the initial contract award. Fulcrum IT will be providing services in areas such as overarching Systems and Software Integration for the Global Command and Control System – Integrated Imagery Intelligence (GCCS-I3), Collection Management Mission Applications (CMMA), and JDISS Infrastructure systems. Fulcrum IT will also provide GCCS-I3 and JDISS Infrastructure Portfolio Management services.

“The JDISS program represents a long history of success supporting military operations worldwide. Fulcrum IT is excited to have the opportunity to serve as the JDISS Systems Integrator supporting DoD organizations across broad boundaries of products and services,” said Robert Blankenship, Fulcrum IT Vice President, DoD and Intelligence. “Our company continues to demonstrate engineering excellence providing leading edge technology to support our client’s mission areas. Fulcrum IT’s technical leadership has proven to be a discriminator competing in the federal market place”.
